Fall:

HAP 5483 Health Care Law and Ethics
HAP 5873 Health Information Systems
HAP 7103 Managerial Epidemiology
HAP 5543 Marketing of Health Services

Spring:

HAP 5973 Seminar in Health Administration
HAP 5323 Operations Research
HAP 5563 Human Resource Management
----- Open Elective

A minimum of 60 credit hours is required for the MHA degree.

Additional Degree Requirements:

- All MHA students must complete an internship in Health Administration (no credit hours). Students will schedule the internship upon successful completion of 30 credit hours. If the student's GPA is below 3.00 or if the student has received a grade lower than a B in any course, the internship may be scheduled at a later date, which may delay graduation.

It is recommended the internship include 10 to 12 weeks of field experience and requires a minimum of 400 hours in the field; the student provides weekly activity logs and bi-weekly reflections.

The fall semester after the internship the student presents a poster and submits a written and oral substantive summary of the internship.

Enrollment in the final semester is dependent on the successful completion of the internship and report.

- **Interprofessional Education**

Effective Fall 2015 all MHA students are required to participate in the campus-wide Interprofessional Education All Professions Days. The purpose of the All Professions Days is to engage Public Health students with students from other Colleges on campus in team building exercises and activities that lead to a greater understanding of the integration of disciplines necessary in the delivery of healthcare and the understanding of the social determinants of health. The All Professions Days requires participation in two half day events, one held in the Fall and one in the Spring term and a team project to be completed prior to the Spring All Professions Day.

- **Performance Expectations**

The successful student must demonstrate achievement of competencies in the following subject areas. These competencies are in accordance with requirements of the Commission on Accreditation of Healthcare Management Education (CAHME). The competencies are included on the department's web site at

[http://www.coph.ouhsc.edu/departments/hap/documents/MHA in HAP Competencies.pdf](http://www.coph.ouhsc.edu/departments/hap/documents/MHA%20in%20HAP%20Competencies.pdf).

Each course syllabus also includes the specific competencies addressed in that course.

This degree program is subject to the policies and procedures printed in the University of Oklahoma College of Public Health Bulletin.
