

Health Administration and Policy: MHA Post-Graduation Fellowships

All students are eligible to apply for a post-graduate fellowship after completing the program. The fellowships are usually one-year positions that provide a student with an extensive administrative experience with a prominent health care organization. During the fellowship the student will receive a stipend from the sponsoring organization. The fellowships are highly competitive on a national basis and require formal written applications, telephone interviews and site visits. In recent years many of our graduates have been selected for several fellowships in Oklahoma and throughout the United States. Over the years, our students have been awarded fellowships by the following sponsoring organizations:

- ACHE Corporate Offices, Chicago, IL
