

Health Administration and Policy: *Current Students*

There are currently twenty-five students enrolled in the Health Administration and Policy Department.

Our students are active both within and outside of the College. Within the College, HAP students serve as leaders in the [College of Public Health Student Association \(COPHSA\)](#) and in the [Student American College of Healthcare Executives \(ACHE\)](#). Outside of the College, our students volunteer regularly, lead various community groups, and actively participate in local healthcare organizations.
