The Julie A. Stoner Memorial Lecture was established jointly by the OU Hudson College of Public Health and the Department of Biostatistics and Epidemiology in honor of the late Dr. Julie A. Stoner, distinguished faculty at the University of Oklahoma. Dr. Stoner served as Professor of Biostatistics, Associate Dean for Research and Chair of the Biostatistics and Epidemiology Department. She held the Edward E. and Helen T. Bartlett Chair in Public Health, and was recognized for her academic excellence as both a Presidential Professor and a David Ross Boyd Professor.
